Home Vastu Analysis

This sample home analysis shows how direction-wise Vastu issues are converted into practical remedies for the home, business and money-flow areas.

Key Observations

- Entry is in the NNE zone. This may create health issues for females in the house. Suggested remedy: use 1 Entry Blocker.
- Kitchen is in ENE. This may reduce happiness or fun, or create issues with higher authority people. Suggested remedy: keep a Green Marble Slab under the kitchen stove or use 1 Kitchen Balancer.
- For the bedroom in WNW/NW, keep the head position towards the South or East wall.
- The ESE bedroom will be better for kids, because the other bedroom is in WNW, a zone that can create anxiety and depression energy.
- For the bedroom in SW, keep the head towards the West wall only.
- Two toilets are in SE/WSW. This may create financial challenges and savings issues. Use 1 Toilet Blocker in each toilet. The toilet in SE can affect manufacturing as per Kundli.
- One toilet is in SSW. This is a good placement.

Home Vastu Analysis

Low-Energy Zones

- Energy of SE, West and NW is very low. This may create financial, cashflow and profit-related challenges.
- Use 1 Booster in each direction, and 1 extra Booster in SE because of the toilet.
- Previously received Vastu devices can be reused if they are already available.

Recommended Devices

Device	Quantity and cost
Entry Blocker	1 x Rs. 2,500 = Rs. 2,500
Toilet Blocker	2 x Rs. 2,500 = Rs. 5,000
SE, West, NW Boosters	4 x Rs. 3,000 = Rs. 12,000
Kitchen Balancer	1 x Rs. 7,000 = Rs. 7,000 (optional; Green Marble Slab can be used)

Total without Kitchen Balancer = Rs. 19,500

Total with Kitchen Balancer = Rs. 27,000
